BODY SLIMMING · FACE

Afrodite VS++

You don't need a device. You need a project that wins.

A professional column with a 10" touch display and handpieces for body and face. The technologies work together on fat, cellulite, tone and contour. With Afrodite come ready-made protocols and the path to launch the body treatment in your centre, even if you're starting from zero.

Face + body | 10" touch display | CE certified | Protocols IT · SQ

We don't sell devices.
We build working systems.

THE TECHNOLOGIES

Each does one thing. Together they make the treatment.

Directional focused ultrasound

Acts on subcutaneous fat, where localised fat builds up.

Radiofrequency

Heats tissue in depth: supports collagen and skin tone.

Vacuum

Suction and release: drainage, circulation, body and face contour.

Micropulse

Pulsed vibration that makes the massage deep yet comfortable.

Low laser

WHAT YOU OFFER YOUR CLIENTS

A complete body menu, from a single column.

Reduction of localised fat · Cellulite · Skin tightening · Body reshaping · Drainage · Facial treatments

THE PROJECT

A device on its own doesn't fill the diary.

What makes the difference is the project: the right device, ready-made protocols, a management system to retain clients and someone at your side. That's what we bring you.

SHEET

In brief.

Feature	Afrodite VS++
Type	Professional column for body and face
Display	Touch, 10"
Technologies	Directional focused ultrasound · radiofrequency · vacuum · Micropulse · low laser
Handpieces	Body and face
Certification	CE
Protocols	In Italian and Albanian
Formula	Purchase or rental

THE DEMETRA METHOD

It arrives with the homework done.

Written protocol

What you do, with which parameters, in what order: page by page.

Assessment sheet

To follow the client session after session and keep track of the programme.

10–12 session cycle

The treatment is a programme, not a single session. The treatment-room card accompanies it.

CORRECT USE

Six rules.
The device lasts twice as long.

Most breakdowns come from use, not from the device. That's why every operator leaves training with the 6-rule card and a certificate to renew every year.

Delivery in the room

Installation, first guided sessions and a signed handover report.

Certified operator

Exam after 45 days, certificate valid for 12 months.

Monthly check

Ten minutes on a video call to catch problems before downtime.

THE NIPEC METHOD

A process that doesn't stop at delivery.

The device is just the beginning. What keeps a centre working is what comes after: the protocols, a trained operator, someone who picks up the phone. That's why we work in four stages.

01

Analysis

Before talking about devices, we look at your centre: who your clients are, how many treatment rooms you have, what an hour of work costs, what you already sell.

- Questionnaire and visit (or video call)
- Review of your price list and diary
- Where the margin you lose today sits

02

Design

Together we choose the right technology and build the treatment around it: prices, packages, session length, purchase formula.

- Device and configuration
- Treatment price list and packages
- Purchase or rental, with the numbers on the table

03

Training

Hands-on delivery in the treatment room and a staged path that ends with an exam. The operator leaves with a certificate valid for 12 months.

- Day 0 in the room, +7 follow-up, +21 online
- Exam at +45 days
- Protocols and rule cards, in Italian and Albanian

04

Ongoing support

After delivery we stay. A single contact for your centre, direct assistance and a monthly check to prevent device downtime.

- 10-minute monthly video call
- Parts replacement and logistics
- Launch marketing campaign

THE CERTIFICATION PATH

Day 0
Hands-on delivery

In the treatment room, on the centre's own device, with real clients.

+7
Follow-up

We correct the bad habits of the first week.

+21
Online

Advanced protocols and real cases brought by the operators.

+45
Exam

Practical test and a 20-question written test.

12 months
Certificate

Personal certificate to display in the centre. Renewed every year.

Want to launch body treatments in your centre?
